Riding in the Valley
inspecting grazing for
the coming winter

A ride on the slopes - good Autumn grazing

Annual rainfall of 1 000 mm. Carrying capacity of 2.5 LSU/Ha. Grasslands, Indigenous forest in spectacular kloofs with waterfalls and thornveld (bushveld) in the valley. The farm is currently farmed with beef cattle, but it is also suitable for game. The farm offers absolute peace and tranquillity to unwind and relax. The location and setting is perfect for the weekend farmer, but with its size and carrying capacity, it is an economically viable farming unit.
